ABOUT BMP

B Morrow Productions (BMP) is a creative and production firm representing a new methodology of how creative work is developed- in a very collaborative approach- between clients and the talents of BMP. Considered an entrepreneurial, fast pace and creatively driven studio BMP offers considerable room for personal and professional growth for studio talent (we don't use terms like employees and team members…you are the talent). With clients around the globe in various market sectors including theme parks, zoos, live entertainment, resorts and educational experiences the BMP team always has a wide variety of projects to dive into providing growth and ownership into project development.

BMP was founded on the belief of creating a safe, equal and creative space for creators and makers. We believe an inclusionary group of talents will not only create better for our clients but represent the full audience we are designing for. IDEA (inclusion, diversity, equality, and accessibility) are our design beliefs not only for our clients but for our studio. At BMP your complete, unique and wonderfully talented whole self can come to the studio each day, or sometimes work at home, to create and make amazing spaces and experiences.

BMP is also uniquely a 100% LGBTQ+ owned and operated business as certified by the NGLCC.

YOUR ROLE

As a **Production Designer-** you will help support and administer the creative and production process from concept through completion for attraction development, show sets and assigned studio projects. Candidates must have an eye for detail and strong organizational skills, ready to ensure that all projects are completed on time, within budget, and meet high quality standards.

You will be interfacing with other creative contributors in the studio and often be client-facing during meetings and workshops. You will provide additive creative ideas to the project team while assuming the key role of support to project team members. You will be part of the creative development process including front-end charrettes and group and individual design thinking activities.

RESPONSIBILITIES

- Design of show sets, props, and facades for attractions, events, and exhibits at themed Attractions.
- Be an active part in the creative development process of attractions and event spaces.
- Use of 3D modeling software Revit & Rhino for the purpose of building assets and extracting drawings and information from client assets.
- Creation of 3D models in Revit & Rhino as a visualization tool to communicate design, and perform spatial and sightline studies, for internal and external teams.
- Work alongside the BMP team and Client RI (Responsible Individual), to collect creative direction and visual guest intent to be translated and improved during the design process.
- Research ride systems, building finishes, interior finishes, and materials to add visual and experiential value to projects.
- Develop AutoCAD & Revit sheet sets and drawing package assets for project deliverables.
- Produce AutoCAD & Revit drawings; including plans, elevations, scenic show sets, props, and any other drawings required for the successful completion of the project.
- Collate drawings, image references, and drawing notes into concept, schematic,
- preliminary, and detail design drawing packages.
- Make recommendations about materials and buildability of scenic designs.
- Support the BMP Production Facility through the creation of shop drawings.
- Assist in developing presentations and creative decks for client meetings.
- Communicate and coordinate with contractors, consultants, and other design and production team members, both internal and external to the BMP studio.
- Assist in the BMP production studio on multiple concurrent projects as needed.
- Travel to project sites, as needed for confirming conditions, field measurements and assisting during installations and field coordination.
- Maintain confidentiality of all information.
- Able to climb ladders no more than 12' tall.
- **ALWAYS share the BMP studio spirit with others internal and external**

QUALIFICATIONS

- Proficiency in Revit design software
- Proficiency in AutoCAD design software
- Experience in Rhino, 3ds Max, or Maya
- Experience using BIM360 or Autodesk Construction Cloud
